

WorkForce Experience

Connect Your Whole Organization: Every Employee, Every Day, and Everywhere Work Happens

Organizations that make employee experience a priority are more resilient because their workforce is engaged, informed, and motivated to bring their best to the job. Building a rich employee experience can be achieved with a workforce management solution, especially when many deskless or frontline workers are far away from HQ.

Introducing WorkForce Experience — the only solution of its kind that connects the whole organization, providing easy access to communication and collaboration tools through the WorkForce Suite. Now, organizations can strengthen workplace bonds and provide meaningful engagement tools to employees wherever they work.

The WorkForce Suite

The Benefits of Employee Experience

70%
of employees are more likely to stay with employer¹

79%
of employees say they are more productive¹

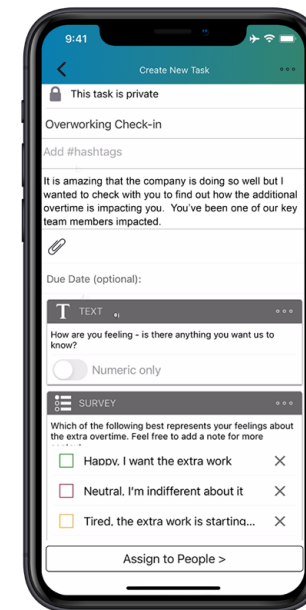

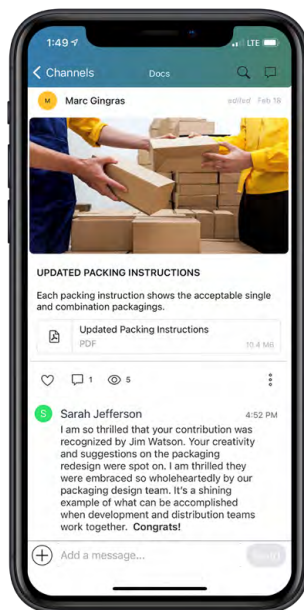

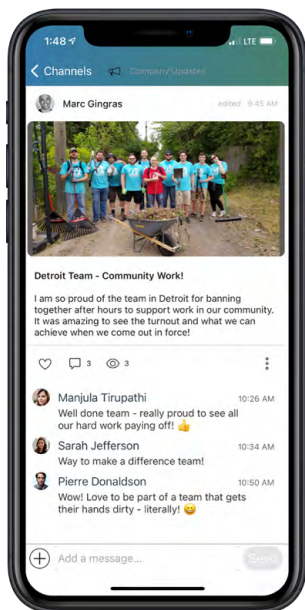

2.1X
average revenue compared to non-experience focused organizations²

“There’s more of a connection between stores and the head office than there ever was before.”

— Alice Millichamp, Retail Operations Manager at Kurt Geiger

One Place for Communications, Collaboration, and Training for Everyone in Your Organization

Simplified, Accessible Communications

Enable real-time communication and two-way conversations with direct messaging
