*WFS Solutions*

**Time and Attendance**

## Customer Objectives

- Move on premise applications to the cloud to reduce labour and IT management costs
- Fully automate all time and labour management activities
- Ensure compliance and evolve with changing regulations and internal policies

## The Solution

- Automated time and attendance processes with WFS Time and Attendance
- Diverse workforce of 2,800+ employees serving 38,000+ K-12 students
- Complex requirements for managing multiple assignments, role-based security, and comprehensive FLSA calculations and reporting
- Simple, successful migration to the cloud

## Key Benefits

- Reduced IT resource requirements with a SaaS system that requires no upkeep or maintenance
- User friendly system that allows employees to easily check-in and check-out and view vacation balances
- System visibility for managers to quickly see who is working across multiple locations in the district
- More accurate payroll – employees are paid for the time they work
- Improved compliance with labour regulations and policies
- Employees and staff can spend more time working with students and less time managing time sheets
