ADP® WorkForce Suite

7100 TIME CLOCK

Secure and user friendly for fast-paced work environments

The ADP WorkForce Suite 7100 Time Clock features a 10" capacitive touch display providing a sleek, modern data collection solution.

Its rich feature set includes recording in/out hours, reporting meal break activity, entering labor codes, performing department transfers, real-time transaction validation when use with the ADP WorkForce Suite Time and Attendance solution, and the ability to view schedules and timeoff balances.

Designed specifically for continuous use in high-traffic work environments, the 7100 Time Clock is robust, secure, and features a powerful industrial grade quad-core processor. The device also has optional Power over Ethernet (PoE) connectivity for fast and cost-effective installation.

Key features

Robust and reliable timekeeping functionality

10" full color, high resolution multi-touch display

Optional biometrics for verification or identification
