

Modern Workforce Management for Manufacturing Employers

Create Moments That Matter, When and Where Work Happens

The manufacturing industry has experienced significant change in the last few years, accelerated by rapidly evolving customer demands, technology advancements, supply chain disruptions, and on-going labor shortages. Your leadership position can depend on how quickly you identify and adapt to opportunities. Tap into the power of your people by leveraging digital workforce management solutions to ensure you can operate with greater agility.

Leading our industry, WorkForce Software is the only global provider of workforce management solutions with integrated smart communications which provide operationally focused flow-of-work and data-powered feedback loops.

Our Manufacturing Customers Realize Significant Value with WorkForce Software

We are helping leading manufacturers build highly engaged and effective teams to become employers of choice for the next generation of workers, improve operational performance, and continue to adapt and respond to ever-increasing change.

AkzoNobel

Autoliv

“This was part of larger, ever-changing project moving from on-premise to the cloud so our integration with other systems were changing at the same time. We could plan for the future with the WorkForce Software architecture.”

— Phillips 66

“We have saved so much time, automated many processes— things we could never have achieved otherwise.”

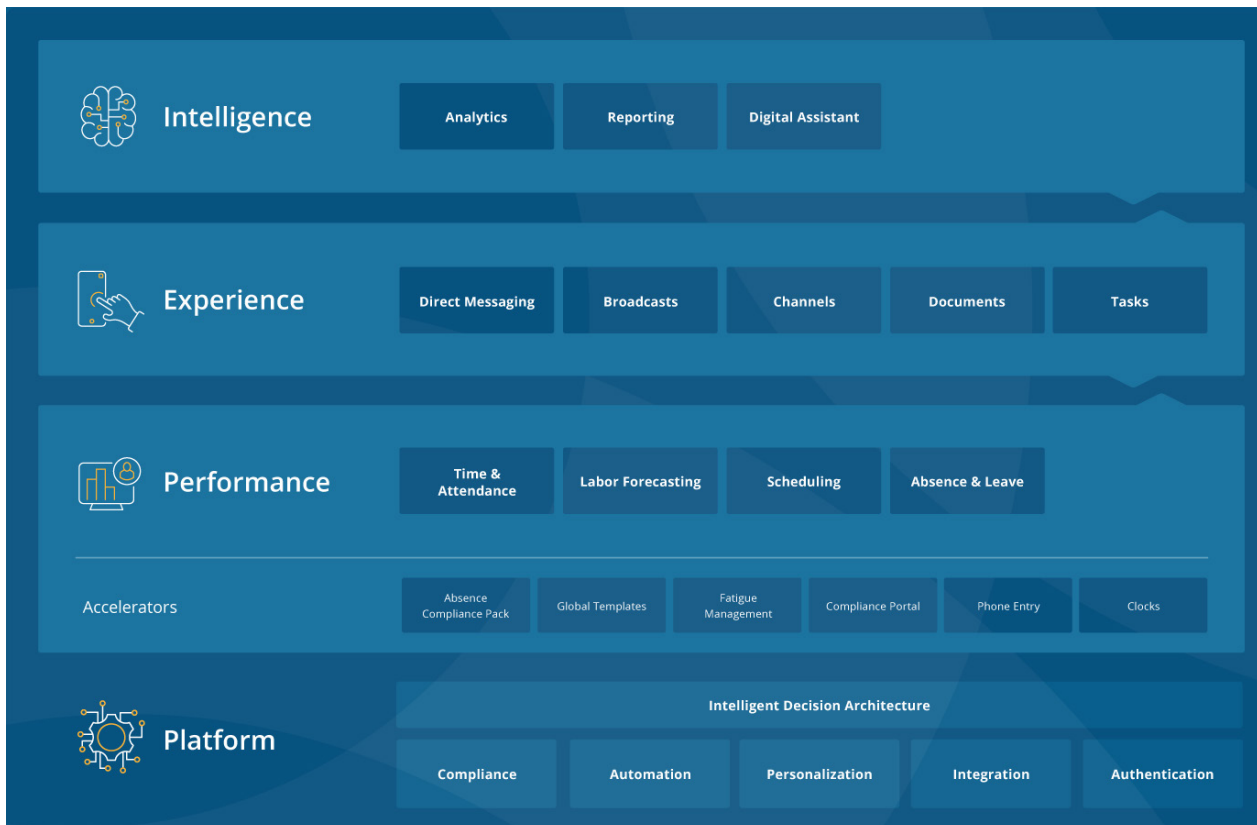

— Autoliv

Experience WorkForce Software

Enterprise-grade and future-ready, WorkForce Software solutions adapt to your organization's needs — no matter how unique your pay rules, labor regulations, and scheduling requirements. We've made an investment in smart communications tools with manufacturers in mind that are designed to be in the flow of work and support your ability to adapt and communicate quickly, with the ease of use of a favorite personal app.

The WorkForce Suite

Personalized one-stop approach

Offers a mobile-first, responsive design for access from any device and full support for your global workforce management and employee engagement needs.

Self-service

Access to schedules, time sheets, gross hours, pay, absence and leave requests, shift swaps, availability and communications for clarity and connection between leaders and co-workers.

Intelligent urgency model

Uses real-time data to predict potential issues, prioritize tasks, automate actions, and send notifications to proactively address items that require immediate attention.

Task management

Create workflows that define priorities and deadlines, so tasks are assigned to, managed, and completed by the right team members.

Global compliance

Across multiple countries and no matter how unique your pay rules, labor regulations, schedules, or policies.

Built to adapt

Delivered through an enterprise-grade platform and an Intelligent Decision Architecture that enables rapid adaptation to new operating policies or regulatory change.

We're excited for the opportunity to partner with you to bring continuous innovation and collaboration to your company's most valuable asset — your workforce.
