

The WorkForce Suite

The Next Generation of Workforce Management for Employees of Every Generation

Leading organisations know that their employees are their most important asset, and that workforce management solutions can significantly improve employee engagement in the face of accelerating change and growing compliance requirements.

WorkForce Software is the first global provider of workforce management solutions with integrated employee experience capabilities. Enterprise-grade and future-ready, the WorkForce Suite adapts to each organisation's needs—no matter how unique their pay rules, labour regulations and schedules—while delivering a breakthrough employee experience at the time and place work happens.

Intelligence: Predictive analytics, insights, reporting and digital assistant to drive real-time decision making and enable proactive actions—unlocking opportunities for improved productivity and employee experience.

Experience: Communication and collaboration channels, feedback, in-the-moment information gathering, micro-training, self-service, automation, task management and easy access to critical work resources—optimising employee experience while strengthening workplace bonds.

Performance: An integrated solution for easy, anywhere and always-on management and optimisation of your workforce, including forecasting labour requirements, scheduling, time, attendance, absence, leave and accommodations. Powerful together or stand-alone to meet your workforce needs.

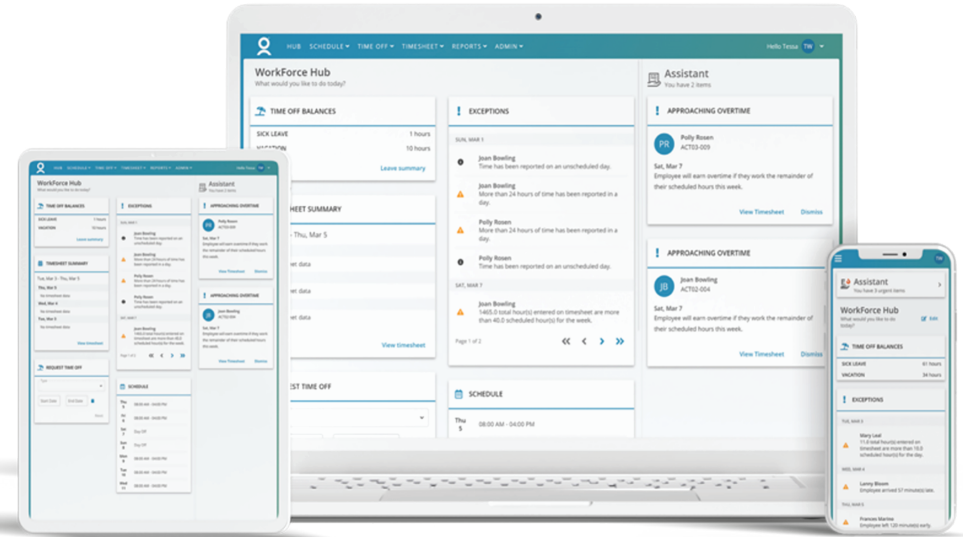

Accelerators: Add-on options to help you execute faster and smarter—boosting productivity, simplifying workflows and addressing industry-specific requirements.

Platform: A SaaS solution integrating your workforce processes and data in a global workforce management platform, powered by an intelligent decision architecture and automation to manage continuous global compliance and integration to HR and other systems with an intuitive user interface.

True Employee Engagement at the Time and Place Work Happens
